CHAMP 150 CUTTER SERIES
CHAMP 150

PRODUCT OVERVIEW

CHAMP 150
PAPER CUTTER

The CHAMP 150 hydraulic powered paper cutter begins the next chapter in the 130 year heritage of Challenge innovations in the cutting market. This unrivaled floor model machine with its heavy duty welded frame and hydraulic power unit brings strength, reliability, and easy to use controls to the 15" market. With its ability to cut high volumes of hard stocks and books of up to 2" thick, the CHAMP 150 has by far the strongest cut available in a 15" cutter. Its compact frame takes up minimal floor space and is easily moved due to the built in wheels and lockable casters. The 120V electrical requirement allows the machine to be plugged into a standard 20 Amp outlet and can be rolled through exceptionally narrow doorways down to 29" wide. All of these features available in a USA manufactured machine that meets all of the industry's ANSI safety standards for North America and CE standards in Europe.

FEATURES

- Hydraulic powered knife drive
- Hydraulic powered clamp drive
- Front safety tilt shield covers the cutting area during the cut cycle
- "Clamp only" or "clamp and cut" cycles available
- Digital display of cut length setting (inches / metric)
- Easy lock out power switch
- 1-year warranty

SPECIFICATIONS

- Cut width area 15"/381 mm
- Clamp opening (maximum pile height) 2"/51 mm
- Maximum cut behind the knife 12"/305 mm
- Minimum cut behind the knife 1.75"/44 mm
- Maximum clamp pressure: 2,350 lbs.
- Machine width: 28"/711 mm
- Machine length: 34"/864 mm
- Net weight: 600 lbs./270 kg
- Shipping weight: 750 lbs./340 kg

ELECTRICAL

- Standard motor: 120 Volts, 60 Hz, 12 Amps
- Service size: 20 Amps
